**194E-A16...100 A, Base/DIN Rail Mounting**

**Accessory Configuration Guidelines**

Accessory drawings represent modular, snap-on features of Bulletin 194E accessories. They are not suggesting possible accessory configurations. Use the following guidelines for choosing 194E accessory configurations.

- Up to two accessories may be added to the Bulletin 194E switch body.
- For the 194E 25, 32, 40, or 63 A switches, the early break auxiliary contact (-PD10) may only be used in the following configurations:
  - As a single unit on either side of the switch
  - As a single unit on a side when used with a switch + 4th pole (-NP)
  - As a single unit on a side when used with a switch + ground terminal (-PE)
  - As a single unit on a side when used with a switch + neutral terminal (-TN)
- No other auxiliary contact may be used in combinations with an early break auxiliary contact (-PD10)
- Other combinations of auxiliary contacts are permissible.
- For the 194E 80 and 100 A switches, any combination of auxiliary contacts, 4th pole, ground terminal, neutral terminal, and -PD10 is permissible.
