

Bulletin 598 — Junction Box

- Type 4/4X Watertight/Corrosion Resistant
- Designed for use as junction box, terminal wiring box and small automation control box in industrial and commercial application
- Available with optional plastic or metal mounting plates
- Provision for mounting AB or DIN Rail
- Enclosure can accommodate panel mount or rail mount terminal blocks

Standards and Certifications

- cULus
- CE

Technical Specifications

Product Certification	
Approvals/Certification	cULus, CE
Degree of Protection	Type 4/4X, IP66
Environmental	
Storage Temperature Range	-40...75°C (-40...158°F)
Operating Temperature Range	-40...55°C (-40...131°F)
Material	
Enclosure	Thermoplastic Polyester blend, UL94 5VA
Gasket	Foam-in place polyurethane
Plastic Mounting Plate	ABS
Metal Mounting Plate	Steel plus zinc with chromate plating
Mounting Plate Hardware (included with enclosure)	Stainless Steel
Mounting Provision	Brass

Note: In applications where there is shock and vibration, it is recommended to use the metal mounting plate.
