Emerson Supplier Award 2012

AS-Schneider receives highest award

Armaturenfabrik Franz Schneider GmbH + Co. KG from Nordheim (Germany) was given an award for its outstanding performance for the 8th time in a row by the major American corporate group Emerson (Rosemount). The award was presented to Rolf Kummer (Managing Director; AS-Schneider) and Helge Rüter (Sales Director; AS-Schneider) by Bill Rodger (Vice President; Global Operations) during the Emerson Partner Day in Houston (Texas).

Once a year, the major corporate group Emerson awards the outstanding performance of its suppliers on the basis of the evaluation criteria quality, technology, performance and reliability of delivery. This year, the 50 strategically most important suppliers worldwide were invited to Houston (Texas) for the presentation of the award.

As the only German supplier, AS-Schneider was honoured by Emerson for its excellent quality, reliability of delivery and performance, and can now be counted as one of the "Top 5 suppliers" in Europe.

Emerson especially acknowledged the consequent and well thought-out implementation of AS-Schneider's strategy of internationalisation. In this way, the company shows regional presence through the two recently founded branches **AS-Schneider Asia-Pacific in Singapore** and **AS-Schneider Middle East in Dubai** and therefore ensures a shorter reaction time for its customers, as well as a more intensive, personal service for the implementation of individual customer requirements.

"The highest priority for AS-Schneider is to fulfil our customers' needs reliably and as quickly as possible. We can be proud of what our AS-Schneider team achieves each and every day to meet these requirements." (Rolf Kummer)
