

Dimensions

Model number

MVT-HH3

Handheld read/write device

Features

- Portable read / write device
- Battery operation
- Reading and writing of data carriers
- Read and write distance 100 mm
- 2 LEDs as function indicators
- Charger included in delivery package

Function

The MVT-HH4 hand read/write device consists of a read/write head and a handheld unit with operating software. It is designed for mobile, on-site data acquisition.

The handheld unit controls the operating function of the device. The operating routine provides all essential standard functions and offers a menu prompt in German or English.
