

Model Number

IPT-HH9

Handheld read/write device
for IDENT-I System P

Features

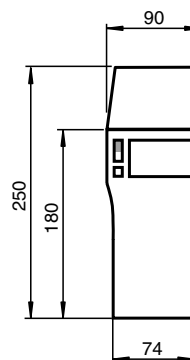

- Portable read / write device
- Handheld-computer PSION Workabout with LC-display and keyboard
- Simple operating software
- Protection degree IP20

Function

The IPT-HH9 hand read/write device consists of a read/write head and a PSION-Workabout with operating software. The device is designed for mobile, on-site data acquisition.

Device function is controlled via the PSION-Workabout. The operating program makes available all standard functions. The user can select between German and English menus. In addition, the user can write his own programs.
