

# **Electrical connection**

**Dimensions** 

Emitter

Receiver

## **Model Number**

#### SLC14-750/129/151

with 2 separate fail-safe semiconductor outputs

#### **Features**

- Sensing range up to 5 m
- Resolution 14 mm (finger protection)
- Self-monitoring (type 4 according to IEC/EN 61496-1)
- Master/Slave detection, Plug and Play
- Protection degree IP67
- Integrated function display
- Pre-fault indication
- Connection via appliance socket M12 x b1
- Safety outputs OSSD in potential-separated semiconductor version
- Protective field height up to 1800 mm
- Start/Restart disable preset by Option /129

## **Accessories**

## **PG SLC-750**

Protective glass panes for SLC series

#### **BASLC**

laser alignment aid for safety light cutrtains series SLC

## **Pinout**

Receiver

Height of the protected area

www.pepperl-fuchs.com

 $PFH_d$ Type

Indicators/operating means Operating display 7-segment display in emitter Diagnostics display 7-segment display in receiver

Function display in receiver: LED red: OSSD off

LED green: OSSD on LED yellow: Protected area free, system start-ready

Pre-fault indication

Controls switch for start/restart disable, transmission coding

**Electrical specifications** 

24 V DC (-30 %/+25 %) Operating voltage  $\mathsf{U}_\mathsf{B}$ 

Emitter: ≤ 100 mA receiver: ≤ 150 mA No-load supply current I<sub>0</sub>

Protection class

Input

Activation current approx. 10 mA Activation time 0.03 ... 1 s

Test input Reset-input for system test (not for option /129)

Function input Start release

Output

Safety output 2 separated fail safe semiconductor outputs Signal output 1 PNP, max. 100 mA for start readiness

Switching voltage Operating voltage -2 V

Switching current max. 0.5 A Response time 26 ms

**Ambient conditions** 

0 ... 55 °C (32 ... 131 °F) Ambient temperature Storage temperature -25 ... 70 °C (-13 ... 158 °F) Relative humidity max. 95 %, not condensing

Mechanical specifications

Housing length L 860 mm Protection degree

Connection Emitter: M12 connector, 4-pin Receiver: M12 connector, 8-pin

Material

extruded aluminum profile, RAL 1021 (yellow) coated Housing

Optical face Plastic pane Mass Per 2550 g

General information

System components Emitter SLC14-750-T / 92

Receive SLC14-750-R / 129 / 151 Startup/restart disable preset

## **Notes**

#### Master slave mode

Master: SLC..-... (semiconductor)

SLC ..-../31 (relay)

Slave: SLC..-...-S

Using slaves makes it possible to lengthen protective fields or to form protective fields that lie in more than just one level. When you select slaves that can be connected, you should take into consideration that the maximum number of 96 light rays must not be exceeded.

There are slaves for transmitters and receivers. These may simply be connected to the master light curtain. As many as 2 slaves may be connected respectively to the transmitter and receiver unit.

#### Installation:

- The end cap should be screwed off for the light curtain (without cable gland). 1
- 2 The plug-in jumper on the connectors of the printed circuit board, which is now visible, should be removed.
- The slave is designed so that the cap located on the cable connector can be plugged directly onto the open end of the light curtain with the printed circuit board.
- After you have screwed on the connection cap, the system is complete.

## System accessories

- Mounting set SLC
- Test rods SLC14/SLC30/SLC60
- Protective glass pieces for SLC (to protect the optically functional surface)
- Lateral screwed connection SLC
- Profile alignment aid
- Laser alignment aid SLC
- Mirror for SLC (for securing hazardous areas on multiple sides)
- Ground pillar UC SLP/SLC
- Housing for pillar Enclosure UC SLP/SLC
- Collision protector Damping UC SLP/SLC
