

Model Number

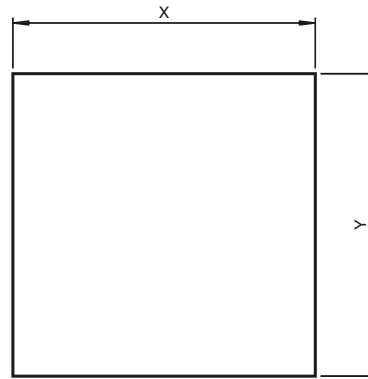

OFR-3870-45700/76

Reflective tape

Reflective tape

suitable for fibre optics sensor without
polarisation filter

Dimensions

Technical data

General specifications

Construction type	roll
-------------------	------

Ambient conditions

Ambient temperature	-20 ... 70 °C (253 ... 343 K)
---------------------	-------------------------------

Mechanical specifications

Material	Typ 3870
----------	----------

Dimensions	45700 mm x 76 mm
------------	------------------

Mounting	self-adhesive
----------	---------------
