

### Model Number

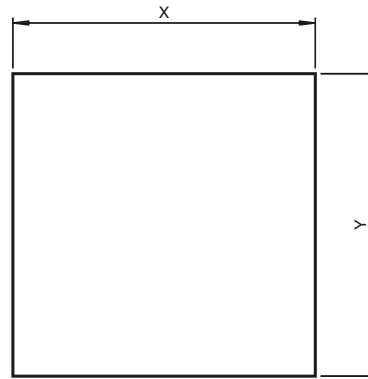

**OFR-3870-45700/25**

Reflective tape

Reflective tape

suitable for fibre optics sensor without  
polarisation filter

### Dimensions

### Technical data

#### General specifications

Construction type	roll
-------------------	------

#### Ambient conditions

Ambient temperature	-20 ... 70 °C (253 ... 343 K)
---------------------	-------------------------------

#### Mechanical specifications

Material	Typ 3870
----------	----------

Dimensions	45700 mm x 25 mm
------------	------------------

Mounting	self-adhesive
----------	---------------
